Capabilities Statement

Skye Analytics, Inc. has over 20 years' experience in data services to small to medium businesses, and government organizations. Our team can mobilize the right people, skills and technologies to help organizations solve complex problems, improve performance, and gain insights to make smarter business decisions. We believe in building strong, lasting, client relationships.

As a **Women Owned Small Business**, Skye Analytics, Inc. is committed to service excellence and creating innovative and scalable solutions for government clients with a high level of expertise.

Enabling data-driven decision making

Business Intelligence (BI) Experts

Combining analytics, data visualization, data mining, data tools, connectors, and infrastructure, using best design practices in Tableau and Power BI.

Cloud Engineering & Geospatial Database Administration

Collecting, transforming, and publishing data. Design, build, automate, operationalize, secure, and monitor data systems, cloud or on-prem.

Data Architecture & Pipelines

Strategic leadership support for integrating and governing data and getting people onboard; support for managing the data and the people.

Tableau Server Enterprise

Implement, Design, Administer, Support

Managed Analytics Services

Work together to understand BI requirements and KPIs. Build and maintain top-of-class dashboards and supporting data structures for business insights in Tableau and Power BI. We handle upgrades, user management, and all other duties to provide a stable analytics platform. Enterprise Integration with APIs.
